

## What is Being Done?

Starting in the spring of 2003, the Michigan Department of Transportation will mill and resurface 1.2 miles of M-52 in the Village of Chelsea. Construction will stretch from Old US-12 to Sibley Road. This \$1.7 million project is made possible through Gov. John Engler's *Build Michigan II* plan. All work is expected to be completed by fall 2003 with no work taking place during the Chelsea Summer Festival or Chelsea Fair.

### Project Staging/Traffic Control

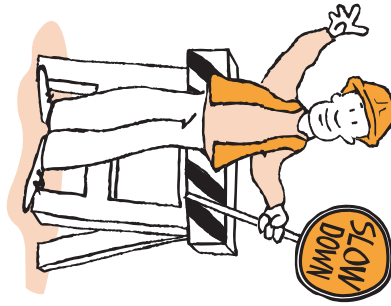

**Stage 1:** Construct storm sewer, curb and gutter, and mill and resurface M-52, from Jackson Road north to Summit Street. One lane of northbound M-52 traffic will be maintained. Southbound M-52 traffic will be detoured to Middle Street, Wilkinson Street and Jackson Road. Stage 1 will be completed and all lanes open to traffic by the end of July, 2003.

**Stage 2:** Construct storm sewer, curb and gutter, and mill and resurface M-52 from Summit Street north to Sibley Road. A single lane of traffic will be maintained with flag control Monday thru Friday from 8:30am to 2:30pm and Saturday and Sunday 9:00am to 3:00pm. Two way traffic will be maintained at all other times with work taking place during day time hours only. Weekend work will be allowed, however no lane closures will occur. Storm sewer work will begin at Middle Street and continue north to the outlet at Letts Creek.

**Stage 3:** Place final, top course from Jackson Road to Sibley Road. A single lane of traffic will be maintained with flag control Monday thru Friday from 8:30am to 2:30pm and Saturday and Sunday 9:00am to 3:00pm.
